G.O.P. State Officers Carry Crawford

DANGEROUS BLAZE—Flames, that swept through two frame buildings housing the Grayling Restaurant and Burns Hardware store at Grayling last Friday night, endangered for a time an entire business block on Michigan Avenue. Firemen, shown above battling the blaze, were hampered by dense smoke that attracted a large crowd of spectators. Loss was estimated at \$50,000.

Grayling business district was imperiled last Friday night as a blaze broke out in the Grayling Restaurant and Burns Hardware store and spread to the building housing the Burns Hardware and for a time threatened to level the entire block on the north side of Michigan Avenue between Cedar and Peninsular streets.

The fire which apparently started a few minutes before 8 o'clock Friday evening completely destroyed the restaurant and hardware store.

Loss in the three hour blaze was estimated at \$50,000 by fire

CLASS PLEASED WITH PLAY ATTENDANCE

The Junior Class of Grayling High School was more than pleased with the fine turnout they enjoyed at their annual play "Stranger in the Night", last Thursday and wish to thank all who attended. Although all proceeds have not been turned in, their class sponsor, Wesley Kumpula, feels that approximately \$100.00 profit will be cleared after all bills are paid.

We are sure that those attending the play were equally pleased with the entertainment. It was well cast and well done.

Among those present at the performance was a delegation from Boyne City High School. They are soon presenting the same play and invited the class to come and see their interpretation.

Announce More Plans For Trade Show

Just one more week to wait for Grayling's big show, Friday and Saturday, April 15th and 16th. Club members and merchants alike are working hard to put the finishing touches on what promises to be the big event of 1955.

Here are a few of the good things in store for you.

Also, you men (and ladies, too) who are interested in "hitting the big time" are hard to miss Sergeant Coykendall from the Michigan State Police Post in Lansing. He will show you what fancy shooting really is.

Saturday evening the famous Nash Keltinator Glee Club under the direction of Mr. Conrad DeMar, will entertain you.

A half hour of Grayling's talented kid tap dancers will show you their newest steps.

Door prizes such as, gasoline, oil changes, paint, clocks, groceries, out-of-door grills, sheets, beach towels and merchandise and many other wonderful gifts are on the list.

All this together with the wonderful surprises from the various booths awaits you.

Remember April 15th and April 16th.

Crawford County Cancer Goal Set

Crawford County's goal for the 1955 American Cancer Society's crusade, which will run through April, has been set at \$600.00. Mrs. Harold Rasmussen, chairman of the campaign here, announced today.

Last year's local goal was \$550, and \$1,000.00 was actually subscribed. Even this amount is hardly enough to carry out the work for cancer in the county.

This increase over the 1954 quota reflects the need shown by the whole underlying situation in the war against cancer. It represents Crawford County's share of the increase in the national goal from \$20,000,000 a year ago to \$24,000,000 for 1955. The 1954 national goal was oversubscribed by \$1,700,000.

"Our population is growing older, people are living longer, and as a result the incidence of cancer cases in the United States is rising," Mrs. Rasmussen explained. "More and more our women are entering the age group most susceptible to that disease. Hence the Cancer Society must intensify its nationwide program of service to patients, sponsoring research toward finding new methods of cure, and educating the public in ways to detect evidence of cancer early enough to enable effective treatment."

"Lives saved in this country last year through early detection of such cases and prompt medical attention totaled 75,000. But twice as many could have been saved if treatment could have begun in time. That tragically regrettable circumstance is a constant challenge to institutions and medical scientists whose efforts to eradicate cancer, and to aid those who have the disease, are being supported by the ACS."

All through April, the volunteer Cancer Society campaign will carry on a systematic campaign of education, through wide-spread distribution of literature on the subject, and by free shining of colic and illuminating motion pictures.

"In the last 10 years, the ACS has devoted approximately \$35,000,000 to cancer research," Mrs. Rasmussen added. "And about \$5,000,000 in the 1954 drive went toward the same end. Such research supported by our Society is going forward in some 132 hospitals, universities, and laboratories. More than 1,000 top-flight scientists are concerned directly with the activities, and over 8,000 younger men and women are working as technicians or training for larger responsibilities under these key investigators."

"By giving generously to the volunteer campaign here in April, people of Crawford County can play a commendable part in the unceasing battle to conquer cancer."

But twice as many could have been saved if treatment could have begun in time. That tragically regrettable circumstance is a constant challenge to institutions and medical scientists whose efforts to eradicate cancer, and to aid those who have the disease, are being supported by the ACS."

All through April, the volunteer Cancer Society campaign will carry on a systematic campaign of education, through wide-spread distribution of literature on the subject, and by free shining of colic and illuminating motion pictures.

"In the last 10 years, the ACS has devoted approximately \$35,000,000 to cancer research," Mrs. Rasmussen added. "And about \$5,000,000 in the 1954 drive went toward the same end. Such research supported by our Society is going forward in some 132 hospitals, universities, and laboratories. More than 1,000 top-flight scientists are concerned directly with the activities, and over 8,000 younger men and women are working as technicians or training for larger responsibilities under these key investigators."

"By giving generously to the volunteer campaign here in April, people of Crawford County can play a commendable part in the unceasing battle to conquer cancer."

The beautifully rendered, choir numbers for "The Restoration Story" gave a Spiritual setting for the worship held Sunday. It all blended together with the readings, and Flannelgraph depicting "The Story of Our Martyr, Joseph Smith," when he had his vision in The Grove in the year of 1827, in Palmyra, New York. In Our Church History, you will find this Testimony: "I saw two personages (whose brightness and glory defy all description) standing above me in the air. One of them spake unto me, calling me by name, and said (pointing to the other), 'This is my beloved Son, hear him.' The Prophet, Joseph Smith went down in history as did The Apostle Paul of the New Testament. He too, had a vision.

PET PEEVE
You can't like it!

MODERN conveniences sure are wonderful. Most of the time. Once in a while they're awful inconvenient.

I recently had a trying experience with a bathtub. When I was growing up we used a little rubber stopper to plug the outlet. Very simple. Put in the stopper and turn on the water. Pull out the plug when you're through.

These days you dip a little handle from one side to the other to keep water in or let it out. That's fine. The only trouble is when you are letting the water out inquisitive young fingers can reach down and pull the stopper completely out, along with about a foot of hinged appendages. Just try putting it back in, brother, that's all I ask. It can be done, sure, but it always takes me a full hour of poking and manipulating.

A few days ago, I brought in two mud-smeared children for a bath. The stopper had been removed from the tub. I tried slipping it in gently. Wouldn't go. I twisted, turned, pushed, still no results, as four muddy feet were tracking up the entire house.

I pushed and twisted, tried putting soap on the opening. No results. Finally, in desperation, I slammed down hard, jamming the plug and closing the outlet.

After the baths, I had to get a screw driver and work some more. I had jammed so hard that the outlet wouldn't open to let the water out.

I'm spending my spare time looking for a rubber stopper to fit the outlet. Next time out, she stays out.

Plan Work On Manistee River

Conservation department work on seven rivers and watershed systems of Michigan will get under way as soon as weather permits. In Clare and Gladwin counties, channel work, streambank fencing and upland planting will complete major watershed work on the Cedar River. The project was started last year.

On the Upper North Branch of the Cedar in Gladwin County, 100,000 spruce trees will be planted.

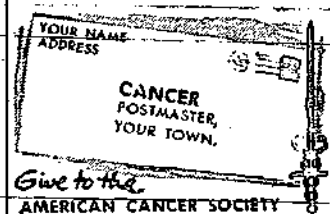

Tree planting and channel work is planned on the headwaters of the Manistee River in Crawford County.

Upland plantings are scheduled on the Fox River in Schoolcraft County.

Channel work is slated on the Huron River in Washtenaw County.

Survey and study work is planned on two other streams. The White River in Newaygo County will be studied for possible watershed work and more experimental effort is planned on Pine Creek in Dickinson County.

Pine Creek is a high-gradient stream, typical of the western upper peninsula. Twenty-one different channel structures were built on the stream last fall to see which best checks damage caused by spring runoff water. The information will be useful in future work on other similar streams.

Indispensable Man

It is clear that President Eisenhower does not look on himself — or anyone else — as being an "indispensable man." When the subject came up at a press conference, in connection with the 1956 general election, he said: "Did you ever think what a fate civilization would suffer if there was such a thing as an indispensable man? When he went the way of all flesh, what did happen? It would be a calamity, wouldn't it? I think we need to fear that."

Republican strategists, however, with their fingers to the prevailing political winds, take a somewhat different view. They find that Mr. Eisenhower, personally, is far more popular than the party. And most of them seem to have come to the conclusion that their prospects, so far as can be seen today, would be hindered without him at the head of the ticket.

U. S. News & World Report, in its issue of March 11, nicely sums up the current political situation in an article based upon the Gallup and other polls, and upon the conclusions of seasoned battlers in the political arena. On the GOP side, it is all Eisenhower.

According to the latest Gallup Poll, the President's popularity among the voters is close to its all time high. 71 per cent of them approve his conduct of his office, against 75 per cent in September, 1953. His low point, 57 per cent, was touched in November of last year. Among Republicans, 74 per cent want him to run again. If he does not run, Vice President Nixon is the next favorite — but only 30 per cent of the Republicans pick him. Thomas Dewey is next, with 23 per cent, and Harold Stassen follows, with 20 per cent. In other words, the President leads the field by a huge margin. On the Democratic side, the Gallup Polls show that Adlai Stevenson is also an overwhelming favorite — 61 per cent of the Democrats chose him, as against only 17 per cent for Senator Kefauver, the second choice. There is considerable talk now about Averell Harriman being picked, as a result of his upset win in the New York gubernatorial contest. But a mere four per cent

of the Democratic voters polled chose him.

The most significant of the Gallup Polls pitted candidates against each other in theoretical contests. It showed that Eisenhower would defeat Stevenson now with 59 per cent as against 41 per cent of the vote (a substantially larger margin than was registered in 1952), and that he would overwhelm Kefauver, 64 per cent to 36 per cent. But Stevenson would take the measure of Nixon, and with ease — 61 per cent to 39 per cent.

A while ago it was rumored that the President would not run — that he was determined to retire and enjoy life at the end of one term. Now the Washington consensus seems to be that he will run. The pressure on him to do so is terrific. For, as U. S. News says, "When Republicans appraise the vote division and prospective candidates, they are led to believe that he is the only man who can win for them."

The game was nip and tuck throughout but the woodchoppers copped the game, 23-21. The second game, with the Midland College team, witnessed the downfall of the "Jacks", Midland winning 23-34. The game was fast and well played except for a noticeable lack of knowledge of the rules on the part of East Jordan. The first half started without Captain Woodburn of the home team and Grayling did not seem to have any ginger at all and the half ended 11-19 against them. The next half saw a decided change. Woodburn was in and threw four baskets in less than four minutes. After his appearance in the game, East Jordan did not have a look-in, and our boys won handsly.

R. D. Cozine was elected supervisor of Grayling Township; Lee Winslow, clerk; and Holger Hanson, treasurer. In Beaver Creek, Mr. Hanna was elected clerk.

Big news about

Buick's 4-Door Riviera

THIS brand-new kind of automobile — the sensation of all the Auto Shows this year — is now rolling off the Buick assembly lines in volume numbers. That's the first news.

And the second is just as wonderful — this dramatic new model is very definitely everything that eager buyers hoped it would be.

For the 4-Door Riviera is the first "hardtop" ever available with separate doors for rear-seat passengers — plus rear-compartment room big as a Buick-size family sedan.

It comes breezing in with all the low-lined sweep and wide open visibility of Buick's original 2-Door Riviera — and with luxurious new spaciousness in

its sizeable and full-length 4-door body.

With windows down, no posts appear for the rear doors, and you get a completely unobstructed view at both sides.

You find rear doors are hinged at their front edges to swing wide and free, and assure easy entrance and exit.

And you'll find legroom, headroom and hiproom extra-generous both front and rear — with interiors tailored in fabrics and patterns specially reserved for the 4-Door Riviera.

Best of all, this new Buick beauty comes off the line in both the low-price SPECIAL Series and the high-powered CENTURY Series.

So you can pick your 4-Door Riviera with the potent performance of a 188-hp or 236-hp Buick V8 engine — the swift get-away and gas saving of Variable Pitch Dynaflo® — the velvet stride of the Million Dollar Ride — the long list of Buick bonus features at no extra cost — and all at "great buy" prices that have helped move Buick into America's "Big Three" of best sellers.

But — better come see us about the 4-Door Riviera now.

With all-out production — and a prompt order — this newest excitement in cars will be yours that much sooner.

*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.
